**Question: 762**

An insured's business experiences a windstorm loss of \$200,000. The business is insured under a commercial property policy with a \$1,000 deductible and an

80% coinsurance clause. The building has a replacement cost value of \$1,000,000, and the insured has coverage limits of \$800,000. What is the amount the insurance company will pay for this loss?

- A. \$160,000
- B. \$180,000
- C. \$190,000
- D. \$199,000

Answer: A

Explanation: The coinsurance clause requires the insured to maintain insurance equal to at least 80% of the replacement cost value of the building. Since the building is insured for \$800,000, which is equal to 80% of the replacement cost of \$1,000,000, the coinsurance penalty does not apply. The amount the insurance company will pay is the full \$200,000 loss, minus the \$1,000 deductible, which is \$199,000.
